COVID-19 Protocols

Dear LILA Community,

With the return from summer vacation, we ask all parents to please take precautionary steps against the spread of COVID-19 and other illnesses. **If your child(ren) has recently tested positive for COVID-19 and/or they have symptoms of COVID-19 or another respiratory illness**, they need to stay home and away from others until they have not had a fever for 24 hours (without using fever-reducing medication) **and** other symptoms are mild and improving.

It's recommended to test before returning and to continue staying home if testing positive for up to 10 days.

Upon return, regardless of positive or negative testing status, a highly protective mask must be worn for 10 days after first symptoms or positive test result. Your child can remove the mask sooner if two sequential negative tests are carried out at least one day apart showing negative results.

Please notify the school if your child(ren) experiences any symptoms or has been in close contact with a COVID-19-infected person in the past 10 days. (A close contact is defined as sharing the same indoor airspace for a cumulative total of 15 minutes or more over a 24-hour period.) Read and follow the [LA County safety guidelines](#) for the most up-to-date guidance.

In the meantime, LILA will continue to offer sanitation stations and maintain well-ventilated classrooms. Please [click here](#) to read LA County's steps to help lower the spread of illness in schools as well as in the home environment. Feel free to reach out to communications@lilaschool.com with any questions or concerns.

Thank you,

LILA Communications
